# Facial
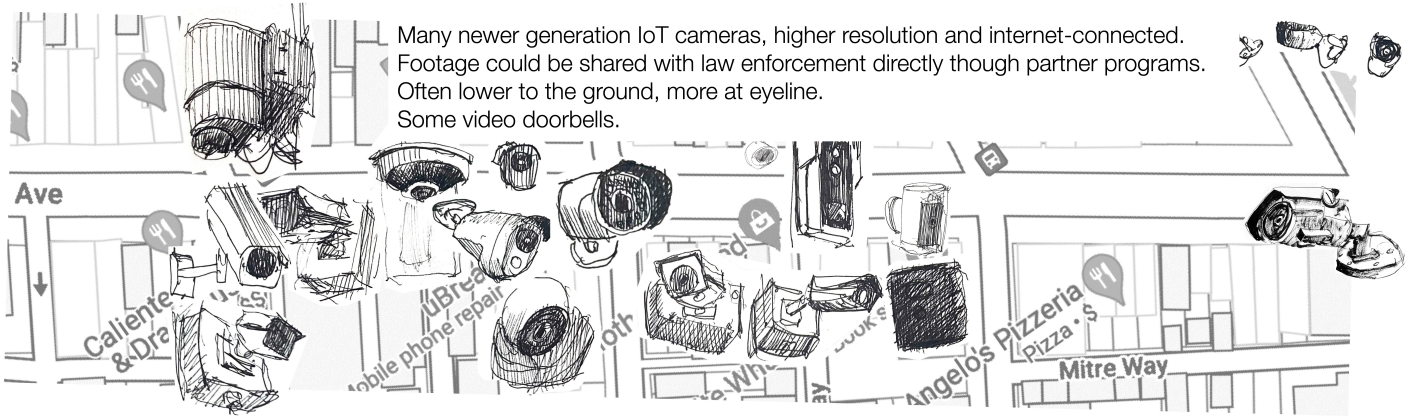

Appears to be mostly older-generation cameras, of uncertain facial recognition ability.
Hardened, placed high up on private businesses.
PNC bank had a camera swiveling loudly on a timer.
Duquesne has a "Blue Light Pole" of dubious effectiveness with a camera towering atop.
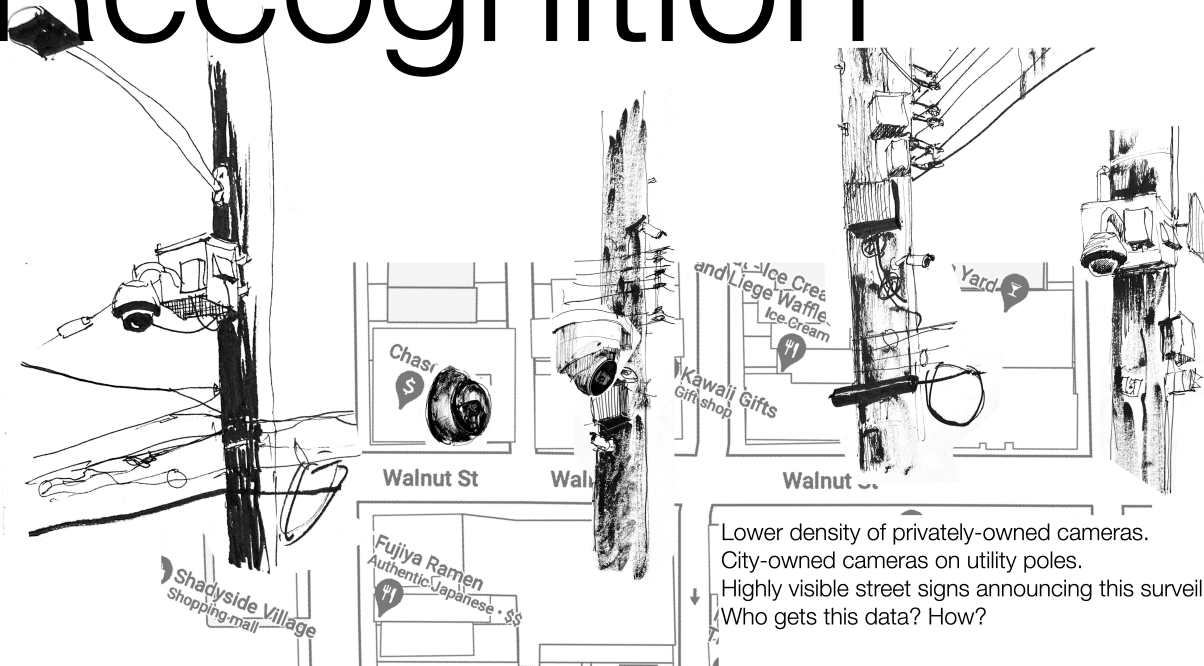

Recognition

Bloomfield

Many newer generation IoT cameras, higher resolution and internet-connected.
Footage could be shared with law enforcement directly though partner programs.
Often lower to the ground, more at eyeline.
Some video doorbells.

Recognition

Walnut

Lower density of privately-owned cameras.
City-owned cameras on utility poles.
Highly visible street signs announcing this surveillance.
