How to Wind a Yarn Butterfly

① Put the yarn in the crook between your thumb and palm.

② Wind the weft back and forth around your fingers.

1 & 2

③ Finish the butterfly by folding the last bit of weft over to form a loop and passing the tail end through. Cinch down to secure the butterfly package.

3

④ When you're ready to use the yarn butterfly, pull from the end that was tucked under your thumb at the beginning. If all is right, the weft will spool off effortlessly.
