Bring an Object to Pattern

Ideal Object

Hard. Medium Sized. Not-too-simple, not-too-complex.

Okay to put tape on. Something you can easily find.

Too Complex, Too Small

Something like a plastic toy soldier is too complex.
It’s also too small.

Too Simple, Too Small

Something like a lip balm container is too simple.
It’s also too small.

Too Furry, Too Alive

We will not be patterning live animals (unless you want to pattern part of yourself). We will be using tape, so even a taxidermied squirrel would be too furry and damaged.

Too Big

While I admire your ambition, a vehicle is too big. Keep the size to be smaller than suitcase and bigger than a baseball.
